

Publication Agreement

Version: May 2025

This is a publication agreement (“agreement”) regarding a written manuscript to be published in the fteval Journal for Research and Technology Policy Evaluation (“the Journal”).

The parties to this agreement are the corresponding author on behalf of any other authors and the Austrian Platform for Research and Technology Policy Evaluation (fteval, “the publisher”).

1. By agreeing to this document, you ensure that you are doing so on behalf of all authors of the article, and that you have the authority to act as their agent for the purpose of entering into this agreement.
2. You hereby grant a Creative Commons copyright license in the article to the general public, in particular a Creative Commons Attribution 4.0 International License (CC BY 4.0), which is incorporated herein by reference and is further specified at <http://creativecommons.org/licenses/by/4.0/legalcode> (human readable summary at <http://creativecommons.org/licenses/by/4.0>).
3. You retain ownership of all rights under copyright in all versions of this article, and all rights not expressly granted in this agreement.
4. To the extent that any edits made by the publisher to make the article suitable for publication in the journal amount to copyrightable works of authorship, the publisher hereby assigns all right, title, and interest in such edits to you. The publisher agrees to verify with you any such edits that are substantive. You agree that the license of paragraph 2 covers such edits.
5. All published articles receive a distinct digital object identifier (DOI) and are registered in the fteval Repository: <https://repository.fteval.at/>
6. You further guarantee that:
 - a. The article is original, has not been formally published in any other peer-reviewed journal or in a book or edited collection, and is not under consideration for any such publication.

- b. If generative AI applications were used in creating or writing, then only with human (authorial) oversight. The content in this paper, including the ideas, concepts, logic, insight, conclusions and recommendations presented in the paper, are the authors' own. You are accountable for its accuracy. The use of generative AI is described as part of the methods of the paper, with details provided in the Methods and/or Appendix sections as relevant.
 - c. In case of re-print in another journal, the author(s) must indicate in a footnote or in the acknowledgment that the article was first published in the fteval Journal for Research and Technology Policy Evaluation, including its digital object identifier (DOI) in the re-published version.
 - d. You are the sole author(s) of the article, and that you have a complete and unencumbered right to make the grants you make.
 - e. The article does not insult anyone, invade anyone's copyright or otherwise violate any statutory or common law right of anyone or violates civil rights. You have made all efforts to ensure the accuracy of any information included in the article. You agree to indemnify the publisher against any claim or action alleging facts which, if true, constitute a breach of any of the foregoing warranties or other provisions of this agreement, as well as against any related damages, losses, liabilities, and expenses incurred by the publisher.
7. The Journal does not charge any article submission or article processing fees (diamond standard).
8. This is the entire agreement between the author and the publisher, and it may be modified only in writing. It will be governed by the laws of Austria. It will bind and benefit our respective assigns and successors in interest, including your heirs.
9. By publishing with the fteval Journal you automatically agree with this agreement.
